December 01, 2008 Monday Morning Motivator - Blame it on The Bear If you look up the definition of the word "bullshit", you will find that it is among the most commonly misspelled words. However, as in all things, its use can be misleading. In its many connotations,

“bullshit” means “nonsense, falsely believed” but in the context of business it does not mean anything false. I’m pretty sure that I am a good negotiator because I prefer to win to losing. Yet, I don’t bully people to get what I want. I try to negotiate fairly with people, and to get things I want, but not at the expense of anyone else. I’m fairly sure that I am a good teacher because I enjoy it. It isn’t that I enjoy the teaching part, as I am often bored to tears (and sometimes that happens in class, on a good day, but not too often), but I like the learning. I like the way students seem to progress by themselves and that the

What's new:

Herbal Balm Review Strawberry Vinegar. Oh boy, what a name to conjure up images of, and when you apply it to any of your hair, body or skin, I don't even need to say the rest. I love lavender in this, along with sweet orange and a touch of peppermint. A quick note - I was told by the brand about releasing strawberry pre-flowering before the growing season. When I inquired about this I was told that the much more potent pre-flower would not be available until spring. I went a bit nuts when I read that, but I was told it was the most potent so I ended up getting it anyways. When I picked it up it was rather powdery-like in texture with an almost rubbery feel to it. That didn't bother me too much - I was just glad that it was not on the dry side. Almost everything I picked up at the store I've already pulled out so I thought about this lemon balm title as something new, and I'm glad that I read it now. An interesting read overall. Not one that I would necessarily recommend for someone's first book, but I think it would make a really good gift for someone interested in health & beauty! I do suggest that you look for a local bookshop near you instead of ordering online - your purchase will be shipped to you from the official site and that buys the narrator some much needed tourism! What are your thoughts on lavender vs strawberry? I really don't know how often you get to read reviews, so I thought I'd bring it up. Anyways, I love lavender, and tried strawberry lavender once, but I couldn't make it stick. I have strawberry. It's zesty and strong. I think I like it better than lavender lavender... Thanks Lulu! I usually order online for books. If I get something shipped I will definitely be buying the companion book! I'm not the biggest fan of lavender, its just too strong for me. I had something like

Commons: Share this: The Galactic Civilizations III - Rise of the Terrans DLC is the second content of the game. It's the last of the four expansion. Since the expansion has not appeared in the download section of my blog as expected (archive: GWIII Expansion DLC 14), I decided to move to the community forums. The expansion contains 4 new maps and 6 new units. I haven't looked into this part that yet. Until I have a full report in that part I will not remove the last question when I ask a question in the game. How To Install & Crack Game Galactic Civilizations III - Rise of the Terrans DLC:
