Once it is done, you will be able to find a new option called Dark View on your toolbar. How to adjust the darkness in Dark View for Firefox The tool allows you to adjust the darkness level, without interrupting the browsing session. The darkness can be increased or decreased with a simple slider, and even the brightness level can be adjusted. For the best results, the brightness level should be set to the maximum, and the darkness level to the minimum. Disable the light sources while browsing You can use the Dark View for Firefox to disable all light sources while browsing, so your eyes will be completely dark, with the exception of a few small white points, for a better control of the brightness level. The idea is to get rid of all the stray light from the light sources when you look at your monitor. Dark View for Firefox vs. other addons The addon from Mozilla is a bit unique in the sense that it reduces the blue light from the screen, while other addons mainly perform other tasks. For instance, Screen Resolution for Firefox is a tool that allows you to change the resolution of the screen, including the aspect ratio. A simple yet powerful extension that will help you get more out of browsing the web with Firefox. Just set the darkness level and it's done! The blue screen light is the one that puts a strain on your eyes, mostly if you are using the computer during the night. However, there are a few things you can do about it. Aside from getting a pair of digital screen protection glasses, you can also apply a darker theme to reduce the amount of blue light that reaches your eyes. Dark View for Firefox is a simple extension that can help you in this regard. Apply a dark mode on all websites you visit. Installing the extension is just a matter of a few clicks, as Firefox instantly detects the file type and sends it its extension manager. Once you grant it the access permissions, the addon is installed and you should notice a new button in the toolbar area, right next to the address bar. The first impulse is to click it and, regardless of the website you are currently visiting (except for the Firefox Browser Add-ons webpage), everything should turn to black. The entire page is covered in a black veil that is meant to reduce the eye strain and help you navigate more relaxed when using Firefox. Nevertheless, in the extension's options, you can define a list of exceptions, containing websites on which the dark mode will not work. Adjust the darkness level to increase the comfort level. If you go to the Extensions Manager in Firefox, you can access the settings of Dark View. Using a simple slider, you can adjust the darkness to a level that you feel is right for your eyes. The darkness level you should choose highly depends on the surrounding light. It is also important how comfortable you feel reading with a specific level of darkness, without having to make an effort to see the text. To make things easier, Dark View for Firefox comes with a set of shortcut keys that you can use to turn the dark mode on and off, decrease or increase the darkness level. Turn dark mode on for all the websites. To get the most out of an extension such as Dark View for Firefox, it is advisable you also use a dark theme for the Firefox browser, which can turn the toolbar and the browser's menu to black. If you are staying in front of the computer during nighttime, using a dark theme is one of the first things you need to do in order to make sure your eyesight is affected as little as possible. TweakUI is a set of small interface add-ons for the Adium instant messenger for Mac OS X. All of the add-ons are available separately as individual add-ons or for a bundle that comes together with the main Adium software package. The add-ons include, among others, a Status Bar, General Add-on Status and Info, File Transfer, Notifications, Quick Menu, Icons, Update and Calendar. You can add them to the Adium application or use them in their own way without having to add them to Adium. Here are some of the more popular TweakUI add-ons. Status Bar: The Status Bar adds an extra toolbar with a Status Bar at the top of the application. It includes all of the application's most important information at a glance. General Add-on Status and Info: A progress bar that informs you if the current process in the application is progressing as expected. A status bar that shows you the status of the installation process. File Transfer: Instantly see which contacts are online and who is online, even if you have no contacts with them yet. Notifications: A notification area for Adium where you can quickly see who is online and whether your messages are queued up for delivery. Quick Menu: A menu that allows you to access frequently used functions of the application. Icons: A set of icons that can be applied to other parts of Adium. Update: A progress bar that informs you whether the program has been successfully updated. Calendar: A calendar for your contacts that is even more suitable for large groups. Description: Mullvad VPN is a VPN service that was launched in 2011. It works on the principle of allowing anyone to hide their identity and access the internet anonymously while keeping the IP address that the connection appears to come from. Using a VPN can protect your online privacy and help you remain anonymous. These benefits are enhanced when the VPN is used in combination with a Tor onion service. The Mullvad VPN also offers an encrypted and fast Tor connection to make it easier for you to keep browsing and your data safe. For a fee, Mullvad offers more than 100 VPN servers in 15 countries. An individual account costs SEK 210 per month and includes an unlimited connection and an unlimited amount of bandwidth. Since the service is completely free of charge, you have the choice of whether you want to use a free account or to pay for a premium account. For a premium account, you can choose between monthly, quarterly or yearly plans. Each plan offers a different number of connection points and bandwidth. The free account has unlimited bandwidth, but you have access to only 1 connection. Each premium account has unlimited bandwidth, but you can have no more than 10 connection points. The premium plans are priced as follows: Description: Piper is a simple task manager that lists all of the current, running
